

Wausau Paper Products

GBC Packaging introduces Wausau paper products. Featuring 100% recycled paper towels, tissue, soap, wipers, and dispensing systems for the away-from-home market. This includes office buildings, schools and colleges, hotels, factories, airports, high-traffic facilities, and healthcare facilities.

Our Green Seal Certified paper products are 100% recycled and contain up to 73% post consumer waste content. Silhouette dispensers feature modern, translucent styling which allows service staff to see at-a-glance when it's time to refill. Better still, our paper dispensers provide controlled usage and eliminate partial rolls which reduces paper waste.

We are excited about this new line, and would love to show you how you can be green and save on your paper product costs. Here are just a few of the items we have available. Call us to set up an appointment today, ask for Francis Duran or Carlson Mun.

OptiCore Systems

Controlled use dispensing systems

The Revolution® 3-roll tissue dispenser is designed for high-capacity controlled-use dispensing of OptiCore® tissue products. When one roll of tissue is used, simply turn the dial to advance to the next roll. The OptiCore® technology ensures the maximum use of each roll in the Revolution® dispenser to save maintenance time and costs. The Revolution® is ADA Title III compliant when installed according to ADA guidelines. This sleek, contemporary dispenser also features a locking cover to prevent product pilferage and waste.

2-Roll OptiCore® Tissue Dispenser

The Dubl-Serv® 2-roll side-by-side tissue dispenser will accommodate OptiCore® tissue products for controlled-use dispensing and optimum savings in maintenance time and costs. The Dubl-Serv® is designed for high-capacity applications and features a locking cover to prevent product pilferage and waste. When installed according to the ADA guidelines, this Dubl-Serv® dispenser is ADA Title III compliant.

Roll Towel Systems

Controlled use dispensing systems

The OptiServ® Hands-Free dispenser only requires you to touch your personal towel, thereby reducing the chance for cross-contamination from touching commonly used surfaces such as levers or buttons which makes it ideal for food preparation and healthcare environments. This high-capacity dispenser accommodates up to a 1,000-foot roll along with a 4-inch stub roll to optimize dispenser capacity and save maintenance time. With each pull of the slightly exposed towel, the OptiServ® dispenses and cuts a pre-measured 11-inch towel for maximum usage control. ADA compliant when installed according to the Guidelines for Accessible Design.

EcoSoft™ Green Seal™

Towel and Tissue products

EcoSoft™ Green Seal™ towel and tissue products are made from 100% recycled wastepaper and are certified by Green Seal, Inc. The "Green Seal" means these products meet the Green Seal™ environmental standards for paper towels and tissue, making the EcoSoft™ Green Seal™ products among the most environmentally preferable towel and tissue lines available in the away-from-home market.

Soap & Dispensers

OptiSource Convertible™

The OptiSource Convertible™ dispenser features durable plastic construction for years of commercial use, and is available in five color choices to create a unique wash-room appearance. When used with the liquid soap cartridges, 1.0 mL of product is dispensed in each push of the dispenser. With the foam soap cartridges, 0.75 mL of product is dispensed with each push of the dispenser.

Features & Benefits

- Large push bar for easy activation
- Locking cover prevents product pilferage
- Can convert to electronic touch-free
- Custom imprinting available

12503 OptiSource®

Controlled Foam Lotion Soap

This OptiSource® white foam lotion soap is ideal for multipurpose needs in lavatories and designed to replace expensive bar soaps as well as low-quality liquid and powder soaps.

Features & Benefits

- General purpose washroom use
- Complementary dispensing system available
